

I have sought the help of doctors, ear specialist and both conventional and alternative medications to alleviate the pain, pressure, and vertigo that goes along with Menier's disease; and to no avail. The Inspiration sessions, have been the first and only substantial and lasting relief. I believe that we are only at the tip of the iceberg when it comes to the vast possibilities that Inspiration has to offer in improving one's physiology and wellbeing.

Dr. James T. Potere, D.C.

I have chronic fatigue and ELT sessions relax my body and help me to handle toxins from my environment that I was not able to tolerate before. I am seriously considering purchasing one of these devices for my personal use.

SB Ohio

I was really afraid because I discovered a lump on the side of my breast. After one session the lump was gone, I am so relieved.

RJ Ohio

I've been having trouble with a bone spur in my heal. After one ELT treatment, I have been pain free for over 6 months.

KH Minnesota

I suffer from hyper-tension. ELT sessions relax every part of my being.

HC Connecticut

I have had substantial success with Lymph edema stage 1 and 2 in my practice. My patients have had remarkable fluid reduction and their pain has been reduced. I also had great success working with a young girl of 12 who had severe pain throughout her body, after contracting Mononucleosis.

BT Connecticut

INSPIRATION combines the Rhythmic Pulse of the Heart Beat with State-of-the-Art High Frequency Electro Lymphatic Therapy

INSPIRATION

Inspiration's ELT wand is lightly applied to the skin. Energy currents rhythmically relax muscles and relieve tension. Blockages make themselves known by creating a sticky effect between the skin, and the ELT wand.

This Heat Sensitive Thermal Image Shows Areas of Congestion in the Body indicated in red and white

Using the principals of Quantum Physics, vibrational photon energy is induced into the skin and acts to dissipate these blockages that interfere with the ability of Lymph Fluid to transport life sustaining oxygen, nutrients and hormones into the cellular tissue.

Stagnation occurs, weakening the immune system and encouraging inflammation; which is known to be the cause of many common diseases.

The Lymphatic Network is the Purification System of the Body

Lymph ducts and nodes lie just below the surface of the skin. In today's world our first line of defense is in keeping our Lymphatic System clear of blockages.

If the Lymph is cleared of blockages the body knows how to heal itself"

The Lymph Network:

- 1). Clears Toxins out of the Body
- 2). Supports the Immune System
- 3). Cleanses the Blood that goes into the Heart.

The Circulatory System has the heart to pump the blood throughout the Cardiovascular System. But the Lymph Network relies on contractions primarily from the muscles of the lower calf and the effect of breathing on the Thoracic duct. Injuries, immobility, poor diet, dehydration, pathogens, surgery, stress, hormone imbalances, environmental toxins and the normal aging process are all contributing factors to Lymphatic Congestion.

The Action of Stimulating Lymph Fluids is combined with the Soothing Vibration of the Heart Beat

INSPIRATION introduces the heart beat vibration at 1.2 Hertz, coupled with an energy field that balances the low pressure of the lymph with the high pressure of the circulatory system, to create a more harmonious internal environment.

Electro Lymphatic Therapy will totally relax you as your body goes into parasympathetic mode. After a session, you'll be relaxed, restored and renewed.
